

How is My DHB performing?

2016/17 QUARTER ONE (JULY-SEPTEMBER 2016) RESULTS

www.health.govt.nz/healthtargets

This is the first time Raising Healthy Kids has been reported as a health target.

Shorter stays in
Emergency Departments

Ranking	District Health Board	Quarter one performance (%)	Change from previous quarter
1	West Coast	99	▲
2	Waitemata	97	▲
3	South Canterbury	96	▲

20	West Coast	63	▲
All DHBs		78	▲

Faster cancer treatment

The target is 85 percent of patients receive their first cancer treatment (or other management) within 62 days of being referred with a high suspicion of cancer and a need to be seen within two weeks, increasing to 90 percent by June 2017. Results cover those patients who received their first cancer treatment between 1 April 2016 and 30 September 2016.

Increased
Immunisation

Ranking	District Health Board	Quarter one performance (%)	Change from previous quarter
1	Hutt Valley	96	▲
2	Hawke's Bay	95	▲
3	South Canterbury	95	▲
4	Canterbury	95	▲
5	MidCentral	95	▲
6	Southern	95	▲

18	Nelson Marlborough	89	▲
19	Bay of Plenty	86	▲
20	West Coast	76	▲
All DHBs		93	▲

Increased immunisation

The national immunisation target is 95 percent of eight-month-olds have their primary course of immunisation at six weeks, three months and five months on time. This quarterly progress result includes children who turned eight-months between July and September 2016 and who were fully immunised at that stage.

Better help for
Smokers to Quit

20	Hutt Valley	80	▲
All DHBs		87	▲

Better help for smokers to quit

The target is 90 percent of PHO enrolled patients who smoke have been offered help to quit smoking by a health care practitioner in the last 15 months. The hospital target is no longer a health target, results will continue to be reported on the Ministry's website along with the maternity target results.

Raising
Healthy Kids

All DHBs		49	▲

Raising healthy kids

The target is that by December 2017, 95 percent of obese children identified in the Before School Check programme will be offered a referral to a health professional for clinical assessment and family based nutrition, activity and lifestyle interventions. Data is based on all acknowledged referrals for obese children up to the end of the quarter from Before School Checks occurring in the six months between 1 March and 31 August 2016.

*As this is the first time these results are being reported there is no comparison with the previous quarter.

Health target results are sourced from individual DHB reports, national collections systems and information provided by primary care organisations.

This information should be read in conjunction with the details on the website www.health.govt.nz/healthtargets
